VERTICAL GRAIN DIRECTION

NON SEQUENCED METHOD (Standard)

The production of doors is done randomly, that means, they will be fabricated without order and each one will display it own characteristics (graining, shadow, etc.), this method is the standard method of production in the industry.

SEQUENCED METHOD (offered at additional cost)

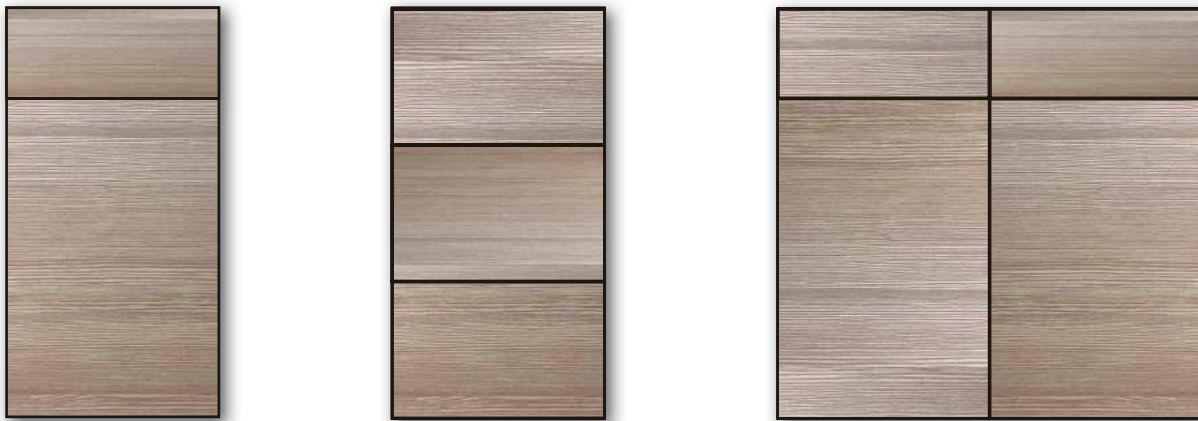

Production of Doors takes into account the position of Doors and Drawer Fronts.

HORIZONTAL GRAIN DIRECTION

NON SEQUENCED METHOD (Standard)

The production of doors is done randomly, that means, they will be fabricated without order and each one will display its own characteristics (graining, shadow, etc.), this method is the standard method of production in the industry.

SEQUENCED METHOD (offered at additional cost)

Production of Doors takes into account the position of Doors and Drawer Fronts. Sequence Limited to 9' (Panel Size) Surcharge may apply for Horizontal Sequencing Kitchen Layouts Required for Production.
